

DUOGLIDE™

The NEW way to cut.

**Awarded the
Arthritis Foundation®
Ease-of-Use Commendation**

“Early on in our research we learned the design of the blade and handle can make slicing and chopping more comfortable, and relieve pressure in the hand, elbow, and shoulder. Thus we began the process to earn the Ease-Of-Use Commendation.”

— Alan Peppel, Owner, Dexter®

- The ultra-soft, right sized and textured handle can be gripped in several ways for more comfort and control
- Provides a “New way to cut” — with precise control, and reduced wrist, arm, or hand discomfort — thanks to soft, textured grips and professional cutting edge
- Design allows hand position over the blade for maximum comfort
