A Grilling-Good Thanksgiving from Harold Import and Elizabeth Karmel

JULY 21, 2005 — There's a new brush in town — bringing a new angle to BBQ basting

Harold Import introduces the Super Silicone Angled BBQ Brush from the creator of Grill Friends™ — Girls at the Grill. The brush is designed to break all the rules of BBQ basting:

- No more cramped wrists — the unique long and angled handle allows precision basting of every nook and cranny
- No burnt or melted brushes — the brush head is constructed of heat-resistant food-grade silicone material
- No bristles in the sauce — the silicone bristles are sturdy and stay put
- No messy clean up — AND it's dishwasher safe

This Super Silicone Angled BBQ Basting Brush will become your secret weapon to perfectly sauced foods. No risk of getting too close to the fire.

No more wrist contortions to get the sauce on the grilled food.

Now, doesn't that make sense?! SRP \$9.99.
