HIC - Harold Import Company IceOrb®

APRIL 18, 2008

make it chill it store it serve it™

HIC - Harold Import Company expands its line of Fusionbrand products with the addition of the IceOrb® -- the world's first vertical ice cube tray and bucket that stores ice while making ice. The patented vertical design engineering allows you to make 21 uniquely shaped cubes and store 30 cubes at the same time. It can be used as a wine or champagne chiller. Also works great on the go or at picnics as a mini cooler to keep foods such as dips and ice cream cool, and serve right out of the IceOrb®. The no-spill design keeps ice fresh in your freezer -- IceOrb® ensures ice is kept pure by locking freezer odors out. Truly a revolution for everything ice. Retails for \$15.99, available from Harold Import Company in June 2008.
