

Taylor Produces Exclusive Scale for HIC

AUGUST 23, 2010

This scale has an 11-pound capacity with 0.1-ounce increments for more precise measuring. The zero reset function, or tare feature, allows you to weigh ingredients in a container without it counting toward the contents and calculate the weight of additional ingredients as you add them. It also features an auto / manual shut off and includes batteries.

“We are excited to partner with Harold Import Company on this exclusive kitchen scale. The combination of the vivid blue color, the Taylor brand, and the Harold Import distribution strategy will be a winning success for both the retailers and the consumers alike.”

—Liz Wentland, Director of Marketing, Taylor
