

## The Ultimate Rapid Whisk

JUNE 16, 2010

HIC's Ultimate Rapid Whisk incorporates more air with every stroke. The inner double-helix stainless steel ball and outer silicone wires whips up fluffier egg whites and whipped cream in half the time of ordinary whisks.

"We have received a tremendous response from our independent kitchen shop customers", states Robert Laub, HIC president. "They're saying it's the most feature-rich whisk they've seen introduced into the marketplace. It's already becoming the best selling new baking item we've added in the past five years."

Its double action and soft comfortable grip makes this the Ultimate Whisk. Perfect for home or professional use. Dishwasher safe.

SRP \$7.99
