Harold Import Company and Elizabeth Karmel Safely Transporting Roasted Turkeys and Meats

AUGUST 2008

"I designed this Super Silicone™ Turkey Lifter for anyone who—like me—has struggled with getting a turkey or roast from the roasting pan to the platter. I've personally tried using tongs, two spatulas...and my hands and been left with a mess. I know quite a few holiday hostesses who accidentally let the turkey slip out of their hands and hit the floor, only to dust it off before proceeding! But one day, I made a sling out of kitchen twine and the idea was born. Think of this as a silicone hammock that safely transports your turkey as well as your roast beef, pork shoulder, ham, leg of lamb etc. to the carving board. The heat-resistant silicone will not alter the browning and cleans up like new in the top shelf of the dishwasher."
— Elizabeth Karmel, Creator of Kitchen Friends™

Suggested Retail: \$9.99
